# DEPARTMENT OF COMMUNITY HEALTH

JANET OLSZEWSKI, DIRECTOR

Capitol View Building 201 Townsend Street, Lansing, MI 48913 Phone: (517) 373-3500, TDD: (517) 373-3573

The Michigan Department of Community Health (MDCH) is one of the largest departments within the executive branch, administering over \$11.19 billion in fiscal year 2007. The functions of MDCH include development of state health policy and management of the state's publicly funded health service systems. More than two million Michigan residents receive services annually funded in whole or in part through MDCH.

The department was created by Executive Order No. 1996-1, issued on January 31, 1996, by the governor, in order to provide a more holistic approach to health care in Michigan. The Executive Order consolidated the Department of Public Health, the Department of Mental Health, and the Medical Services Administration, the state's Medicaid agency. The Office of Drug Control Policy, the Crime Victim Services Commission, and the Office of Services to the Aging were added to the department by subsequent Executive Orders.

The state *Surgeon General* post was created in 2003 by Governor Granholm. It is the first state-level position of its kind in the nation. As Michigan's leading public health advocate, the Surgeon General is charged with addressing the state's health status, and engaging constituencies and partners including schools, communities, businesses and health care organizations to promote healthy lifestyles and reduce the health risks that contribute to chronic disease, premature mortality, and high health care costs.

The *Office of Drug Control Policy*'s mission is to reduce and prevent drug use and crime through prevention, treatment/rehabilitation, and incarceration. The Office of Drug Control Policy provides policy recommendations to the governor and the director of the Michigan Department of Community Health on substance abuse issues and recommends the adoption of strategies for combating substance use issues. The Office of Drug Control Policy is also responsible for the award and administration of grant projects with local criminal justice agencies, state and local governmental agencies, education providers, courts, community-based organizations, prosecutors, and private non-profit agencies to reduce and prevent substance abuse, adult and juvenile crime, and violence.

The *Medical Services Administration* is primarily responsible for the administration of the Michigan Medicaid program — a \$9 billion program that provides health care coverage for low-income Michigan citizens. Medicaid provides health care coverage for approximately 1.6 million Michigan citizens.

The *Bureau of Health Professions* regulates health professionals in Michigan who are licensed, registered, or certified in a wide range of health care occupations.

The *Bureau of Health Systems* deals primarily with the licensing of health care facilities such as nursing homes and hospitals located throughout the state.

**Mental Health and Substance Abuse Services** promote and maintain an adequate and appropriate system of services for children and adults who have a serious emotional disturbance, a serious mental health condition, a developmental disability, a substance abuse problem, or a pathological gambling addiction. Community mental health services programs are available in all 83 counties, under the auspices of 46 single- or multi-county community mental health boards.

Under the Mental Health Code, the department shall:

- Engage in planning for the purpose of identifying, assessing, and enunciating the mental health needs of the state;
- Review and evaluate the relevance, quality, effectiveness, and efficiency of mental health services provided by state and county community mental health services programs;
- Establish minimum standards governing the operation of community mental health services programs;
- Direct mental health services to individuals who have a serious mental illness, developmental
  disability, or serious emotional disturbance with priority to be given to individuals having the
  most severe forms of these disabling conditions who are in urgent or emergency situations;
- Promote and maintain an adequate and appropriate system of community mental health services programs throughout the state;
- Promote and maintain "Person-Centered Planning" approach to case planning and service delivery by all publicly funded mental health programs;
- Develop and establish arrangements and procedures for the effective coordination and integration of all public mental health services, and for effective cooperation between public and nonpublic services, for the purpose of providing a unified system of statewide mental health care;
- Review and evaluate the relevance, quality, effectiveness, and efficiency of mental health services being provided by the department and assure the review and evaluation of mental health services provided by community mental health services programs; and
- Provide statewide forensic services.

The department operates the following **hospitals and centers**:

• A center for children with serious emotional disturbances:

#### HAWTHORN CENTER

SHOBHANA JOSHI, M.D., Director 18471 Haggerty Road, Northville, MI 48167

**Hawthorn Center** is a psychiatric hospital for children who are emotionally disturbed. The center is accredited by the Joint Commission and certified by the Centers for Medicare and Medicaid Services. It is also a training center in child psychiatry and related disciplines in affiliation with Wayne State University and other local universities.

Hawthorn Center was completed early in the summer of 1956.

• Adult psychiatric hospitals:

#### **CARO CENTER**

ROSE LASKOWSKI, R.N., B.S.N., Director 2000 Chambers Road, Caro, MI 48723

The **Caro Center** was originally established in 1913 as the Michigan Farm Colony for Epileptics under the authority of Act 173 of 1913 as a state hospital to serve persons with epilepsy. Subsequent name changes included the Michigan State Hospital for Epileptics, Caro State Hospital for Epileptics, Caro State Home and Training School, Caro Retardation Center, Caro Regional Center, Caro Regional Mental Health Center, and, lastly, Caro Center in 1995. Today, the facility provides inpatient services for adults who have mental illness. The facility is accredited by the Joint Commission and certified by the Centers for Medicare and Medicaid Services.

#### KALAMAZOO PSYCHIATRIC HOSPITAL

James Coleman, Ed.D., Director 1312 Oakland Drive, Kalamazoo, MI 49008

The **Kalamazoo State Hospital**, the oldest state-operated hospital in Michigan, was opened on August 29, 1859. The hospital was established for the "humane, curative, scientific and economical treatment of insane persons," and is situated on 178 acres of land.

On January 1, 1978, the name of the hospital was changed to Kalamazoo Regional Psychiatric Hospital and subsequently changed to Kalamazoo Psychiatric Hospital in July 1995. The hospital is accredited by the Joint Commission and certified by the Centers for Medicare and Medicaid Services. The hospital's physical plant was conveyed to Western Michigan University by authority of Act 480 of 1996 and is currently leased from the university.

#### WALTER P. REUTHER PSYCHIATRIC HOSPITAL

ROSETTUS WEEKS, Director 30901 Palmer Road, Westland, MI 48185

In December 1977, psychiatric services at Wayne County General Hospital became a state operation. It was renamed the Metropolitan Regional Psychiatric Hospital. On October 1, 1979, the state purchased one of the buildings at Wayne County General Hospital and renamed it the **Walter P. Reuther Psychiatric Hospital**. The Metropolitan Hospital was then closed and persons requiring continued treatment were transferred to Reuther. Reuther operates today as a hospital serving adults with mental illness.

The hospital is accredited by the Joint Commission and certified by the Centers for Medicare and Medicaid Services.

• A center for persons with developmental disabilities:

#### MT. PLEASANT CENTER

Kenneth Longton, Director 1400 West Pickard, Mt. Pleasant, MI 48858

This center opened in 1934 as the Michigan Home and Training School. The name was changed to the Mt. Pleasant State Home and Training School with the establishment of the Department of Mental Health in 1945. In 1975, the center was renamed the Mt. Pleasant Center for Human Development with subsequent name changes to the Mt. Pleasant Regional Center for Developmental Disabilities in 1978, to the current **Mt. Pleasant Center** in 1995. The center serves persons with developmental disabilities providing a full range of treatment and rehabilitation services to persons from 79 counties of the state. The center is certified under the ICF/MR program of the Centers for Medicare and Medicaid Services.

• Forensic services:

#### CENTER FOR FORENSIC PSYCHIATRY

WILLIAM H. MEYER, J.D., Director P.O. Box 2060, Ann Arbor, MI 48106

The **Center for Forensic Psychiatry** was established as an agency of the Department of Mental Health under the authority of Act 175 of 1996, and, beginning August 1975, under Act 258 of 1974. The center is under the jurisdiction of the Bureau of Forensic Mental Health Services. The center is accredited by the Joint Commission. The facility was established for the diagnosis, evaluation, and treatment of persons committed to the department by criminal courts; for the reporting of findings and recommendations to the department and courts as indicated; and for the conduct of research on the relationship between mental disability and criminal law.

**Substance Abuse Services** is the other major component of the Mental Health and Substance Abuse Services line. It is governed by the Public Health Code. Its duty is to promote the health and welfare of individuals through the reduction of substance abuse and to participate in efforts to address its social, personal, and economic consequences. To accomplish this mission, Substance Abuse Services administers state and federal funds, advocates for effective public policy, and develops appropriate resources.

The *Crime Victim Services Commission* is charged with overseeing a wide range of services and funding for victims of crimes. It administers the Crime Victim Compensation, Crime Victims Rights and Assessments, Federal Victim Assistance Grants, and Automated Victim Notification programs. Its goal is to promote services and supports that enhance the health, well being, dignity, and rights of victims of crime in Michigan.

The **Public Health Administration** is responsible for assessing community needs and for prolonging life and promoting health through the prevention and control of communicable and chronic disease. These responsibilities and objectives are administered by the following units:

The *Bureau of Epidemiology* is responsible for four major activities: surveillance and prevention of communicable diseases and the response to epidemics; promotion of immunization among children and adults; assessment of the health implications of exposures to environmental agents; and the analysis of health and disease patterns in the populations.

The *Division of Vital Records and Health Statistics* is responsible for collecting and analyzing information on vital events such as births, deaths, marriages, divorces, and related information such as paternity establishment, fetal deaths, induced abortions, persons diagnosed with cancer, children identified as having birth defects, and health services available within the state. It provides documentation and analyses of all vital events which are compiled through a registration system begun in 1867.

The *Bureau of Laboratories* provides services for the identification and monitoring of infectious disease agents such as HIV and other sexually transmitted diseases, tuberculosis, hepatitis, and Legionnaires disease. It has the responsibility for testing each Michigan newborn for eight genetic and metabolic disorders; provides a lead screening program for Michigan children; and provides analysis for chemicals such as pesticides and herbicides in both human and animal tissue.

The *Women, Infants and Children's Division* is responsible for the administration of a special supplemental nutrition program. The program provides nutritional food, nutrition education, breast-feeding education, and support and referrals to health care and other services for women, infants and children with incomes at or below 185% of poverty and who have a nutritional or growth risk. Services are delivered through local public health departments and community agencies.

The *Division of HIV/AIDS-STD* is responsible for planning, directing, and coordinating prevention, control, and intervention for HIV/AIDS among infected and affected populations in Michigan. This program also aims to control syphilis, gonorrhea, and other sexually transmitted diseases. Primary treatment drugs and laboratory support are supplied by MDCH.

The Office of Public Health Preparedness is responsible for protecting the health of Michigan citizens against chemical, biological, and radiological threats. The office works closely with local, state, and federal authorities to develop a regional plan for dealing with bioterrorist attacks and other public health emergencies.

The **Bureau of Integrated Health Services** is responsible for the administration and management of the Michigan Medicaid Program and other health benefit programs. These programs are designed to provide medical assistance to persons with low incomes and high health needs. The bureau purchases health benefits from private qualified health plans across the state and administers a fee-for-service program that reimburses hospitals, nursing homes, physicians, and other providers for health benefits provided to Medicaid beneficiaries.

The *Division of Chronic Disease and Injury Control* promotes healthy lifestyle factors in individuals, vulnerable populations, and communities to improve the length and quality of life for Michigan residents; and translates behavioral science technology into actions to promote healthy behaviors and prevent diseases and injuries.

The **Budget and Finance Administration** is responsible for the following functions:

- Revenue enhancement
- Accounting
- · Contracts and grants
- Budgeting

The *Office of Services to the Aging*'s mission is to promote independence and enhance the dignity of Michigan's older adults and their families. The office is state government's focal point for issues important to our state's 1.6 million older men and women and allocates and monitors state and federal funds to 16 area agencies on aging for Older Americans Act services: access, in-home services, nutrition services, and community services. Statewide services include: legal hotline, Medicaid/ Medicare Assistance Program, and the State Long Term Care Ombudsman. The office administers a federal caregiving program, coordinates with DCH on dementia services and oversees senior volunteer programs. OSA advocates on behalf of seniors with the legislature, governor, state departments, and federal government. The office promotes health and well being for Michigan's aging population through various state and federal grant initiatives, often in conjunction with other state departments.

# MICHIGAN COMMISSION ON SERVICES TO THE AGING

	Term expires
OWEN F. BIEBER, Byron Center	July 28, 2007
CHERYL J. BOLLINGER, Mason	July 28, 2008
MARY P. GARDNER, Ph.D., Lansing	July 28, 2008

WILLIAM H. WALTERS VI, Brown City	July 28, 2008
JANICE A.B. WILSON, Fraser	July 28, 2007
James C. Wright, Springfield	July 28, 2007

The **Michigan Commission on Services to the Aging**, originally created by Act 146 of 1975, was incorporated into the Older Michiganians Act, P.A. 180 of 1981. The commission advises the Office of Services to the Aging, the governor, and the legislature on matters relating to policies and programs for older adults in Michigan; oversees annual service plans and budgets for the area agencies on aging and other grant recipients; and promotes senior citizen interests within state government and local communities. The governor, with the advice and consent of the senate, appoints the 15 commission members to serve three-year terms. A majority of the commissioners are 60 years of age or older, and no more than eight members are of the same political party.

KATHIE L. VANDERPLOEG-HOEKSTRA	Jan. 1, 2008
MICHAEL YOUNG, D.O.	Apr. 9, 2009

The **Certificate of Need Commission** was created by Act 332 of 1988. The commission can approve or revise the Certificate of Need review standards that establish the need for new health facilities, covered clinical services, covered medical equipment, changes in bed capacity, and covered capital expenditures. The members of the commission are appointed by the governor with the advice and consent of the senate for three-year terms. Membership was expanded by Act 619 of 2002 from five to 11 members effective March 31, 2003, with six members representing one major political party and five members representing the other major political party. Staffing support for the commission is provided by the department. The commission meets quarterly.

The **Advisory Council on Mental Illness** was created as required by P.L. 102-321. The council advises the Department of Community Health regarding the goals pertaining to the Federal Mental Health Block Grant. Members of the council are appointed by the director of the Department of Community Health for two years. At least 10 of the members are advocates, consumers, or family members. The remaining members are state agency representatives or provider agency representatives. The council is staffed by the department.

#### CRIME VICTIM SERVICES COMMISSION

	Term expires
MARTIN G. BANDEMER, Peace Officer Representative	. Sept. 27, 2007
Dr. Frank M. Ochberg, Medical Professional Representative.	. Sept. 27, 2008
Janet K. Praefke, Victim Advocate Representative	. Sept. 27, 2009
Frank K. Rhodes, Attorney Representative	. Sept. 27, 2008
KYM L. WORTHY, Prosecuting Attorney Representative	. Sept. 27, 2009

The **Crime Victim Services Commission** was created by Act 223 of 1976. The commission meets six to eight times per year. A five-member Crime Victim Services Commission is appointed by the governor and is composed of a practicing attorney, a county prosecutor, a peace officer, a member of the medical profession, and a community-based victim advocate.

#### Bureau of Health Systems

The mission of the *Bureau of Health Systems* is to protect and improve the health status of Michigan's population through the development, maintenance, and assurance of safe, effective, efficient, and accessible health care services delivered through health care facilities, organizations, and

systems; to promote the development of appropriate regulatory policies to achieve a safe, efficient, and effective health care delivery system. The director of the Bureau of Health Systems is Walter S. Wheeler, III, G. Mennen Williams Building, 5th Floor, P.O. Box 30664, Lansing 48909.

# Bureau of Health Professions

The *Bureau of Health Professions* is comprised of the Administrative Division, Regulatory Division, Licensing Division, and the Health Investigation Division. The *Administrative Division* provides executive direction to the office and houses the Health Professional Recovery Committee.

MELANIE BRIM, Director, Bureau of Health Professions

The Health Professional Recovery Committee was created by Act 80 of 1993 and became effective April 1, 1994. The committee is composed of two public members, appointed by the department director, both of whom have specialized training or experience, or both, in the treatment of individuals with addictive behavior and one professional member appointed by each board and the physician's assistants task force, all of whom have education, training, and clinical expertise in the treatment of individuals with addictive behavior or mental illness, or both. The term of office for all members is two years. The department director, or his or her designee, serves as an ex officio member without a vote. The responsibilities of the committee include establishing the general components of a health recovery program and a mechanism for monitoring health professionals who may be impaired; developing and implementing criteria for the identification, assessment, and treatment of health professionals who may be impaired; developing and implementing mechanisms for the evaluation of continuing care or aftercare plans for health professionals who may be impaired; developing a mechanism and criteria for the referral of a health professional who may be impaired to a professional association, when appropriate, for the purpose of providing assistance to the health professional; and to provide each board with statistical information, on an annual basis, on the level of participation in the program of each health profession. The report may also include recommendations for changes in the program.

The **Controlled Substances Advisory Commission** was created by Act 80 of 1993. It is responsible for monitoring indicators of controlled substance abuse and diversion, and recommending a plan of action for overcoming such abuse and diversion. The 13 commission members are appointed by the governor, with the advice and consent of the senate, to serve 2-year terms. The **Licensing Division** is responsible for determining eligibility for examination and licensure, auditing licensees for compliance with continuing education requirements, and providing administrative support to the health profession boards, task forces, and the disciplinary subcommittees.

Twenty-three boards and one task force are responsible for the licensure or registration of persons in the various health professions regulated by the Michigan Public Health Code. They include the following: Michigan Board of Chiropractic; Michigan Board of Counseling; Michigan Board of Dentistry; Michigan Board of Marriage and Family Therapy; Michigan Board of Medicine; Michigan Board of Nursing; Michigan Board of Occupational Therapists, Michigan Board of Optometry; Michigan Board of Osteopathic Medicine and Surgery; Michigan Board of Pharmacy; Michigan Board of Physical Therapy; Physician's Assistants Task Force; Michigan Board of Podiatric Medicine and Surgery; Michigan Board of Psychology; Michigan Board of Social Work; and Michigan Board of Veterinary Medicine.

#### ADVISORY COMMITTEE ON PAIN AND SYMPTOM MANAGEMENT

**→**•••

The committee was created by Act 421 of 1998. Its purpose is to develop an integrated approach to understanding and applying pain and symptom management techniques. The committee is expected to consult with each of the licensing boards except the Board of Veterinary Medicine regarding this issue. The committee gathers information from the general public regarding pain

management, makes recommendations to the boards on curriculum needs for students and continuing education needs of health professionals, makes recommendations on integrating pain and symptom management into practice and advises on the effectiveness of previously implemented recommendations.

THEODORE L. LOUDON, Lansing	March 30, 2008
JANET A. PHELPS, Grand Blanc	March 30, 2009

The **Advisory Committee on Sanitarians** was created by Act 408 of 2006. Pursuant to Act 368 of 1978, it advises the department on requirements for the registration and examination of persons prior to their entry into the practice and provides penalties for violations of the act.

## SANITARIAN REGISTRATION

The former Michigan Board of Sanitarians was originally formed with the enactment of Act 174 of 1963. On September 30, 1978, this authority was transferred to the Public Health Code, Act 368 of 1978, as amended. This responsibility is now implemented by the Department of Community Health, which is responsible for ascertaining minimal entry-level competency of registered sanitarians. The DCH also has the obligation to take disciplinary action against registrants who have adversely affected the public's health, safety, and welfare.

#### MICHIGAN BOARD OF SOCIAL WORK

Licensed Social Workers	Term expires

The **State Emergency Medical Services Coordination Committee** was created by Act 375 of 2001. Voting members are appointed by the director of the Department of Community Health and serve for a term of three years. The committee 1) provides for the coordination and exchange of information on EMS programs and services, 2) acts as liaison between organizations and individuals involved in the EMS system, 3) makes recommendations to the department in the development of a comprehensive statewide emergency medical services program, 4) advises the legislature and the department on a variety of matters relating to emergency medical services, 5) issues opinions on appeals of medical control authority decisions and makes recommendations based on those opinions to the department for the resolution of those appeals, and 6) appoints, with the advice and consent of the department, a statewide quality assurance task force to review and make recommendations to the department concerning approval of medical control authority applications and revisions concerning protocols and field studies, and conduct other quality assurance activities.
